IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

TRANSMITTAL LETTER

Commissioner of Patents and Trademarks
Washington, D.C. 20231

Enclosed is a patent application entitled:

ELECTRONIC FLUORESCENT LAMP BALLAST

which application consists of 31 pages of specification, 12 claims, and 7 sheets of drawings.

Also enclosed is an OATH, a Statement re Small Entity Status, and a check (#3691) in the amount of \$405.00 to cover the filing fee.

Appliant wishes to make it clear to Examiner that he has numerous other patents issued and pending. Some of these might be considered by Examiner as being material to the examination of instant application. However, Applicant has thoroughly learned that he can not rely on his own judgement with respect to what an examiner might find to constitute materially relevant subject matter. Therefore, Applicant requests of Examiner to identify for himself which of Applicant's issued and/or pending patents might contain subject matter that Examiner would deem to be material to the examination of instant application.

Ole K. Nilssen, Pro Se Applicant
